TECHNICAL SKILLS

Programming

TypeScript JavaScript Go
Python C / C++

Frontend

React 19 Vite TanStack Router
TanStack Query Tailwind CSS
HTML5 / CSS3

Backend & APIs

Hono Bun Node.js
RESTful APIs
Server-Sent Events (SSE)
Better Auth

Database & Storage

PostgreSQL Drizzle ORM
Supabase S3 MySQL

DevOps & Security

Docker Render Cloud
Cloudflare Turnstile
Sentry Tracing Uptime Monitoring
Microsoft Clarity

Distributed Systems

Hyperledger Fabric
Go Chaincode Smart Contracts

Tools & Workflow

Git & GitHub Linux / Ubuntu
ClickUp VS Code
AI-Assisted Dev

PROFESSIONAL SUMMARY

Motivated Computer Science & Engineering graduate from International Islamic University Chittagong (IIUC) with a strong foundation in core computer science and hands-on experience building modern web applications. Passionate about learning industry standards and real-world software workflows. Proactive in leveraging modern AI CLI tools and developer tooling to build, test, and deploy full-stack cloud projects using React, TypeScript, Hono, Bun, and PostgreSQL. An eager learner and collaborative team player seeking a Junior Software Engineer / Web Developer role to learn from experienced engineers and contribute with dedication.

EDUCATION

Bachelor of Science in Computer Science & Engineering (CSE) International Islamic University Chittagong (IIUC)

2021 – 2025 CGPA: 3.367 / 4.00

Higher Secondary Certificate (HSC) — Science Hazera-Taju University College

2018 – 2019 GPA: 4.33 / 5.00

Secondary School Certificate (SSC) — Science CDA Public School and College

2016 – 2017 GPA: 5.00 / 5.00

FEATURED FULL-STACK PROJECTS

Footprint – Omnichannel Footwear Platform & Retail ERP

Solo Project · Deployed Live (Cloud) | 2026

Case Study: github.com/abdullahxDNA/footprint-showcase · Live Demo: footprint-h0d8.onrender.com

Stack: React 19 · Bun · Hono · PostgreSQL (Supabase) · Drizzle ORM · Docker · Render · Cloudflare Turnstile · Pathao Courier API · Sentry · Microsoft Clarity

- Built a full-stack footwear e-commerce storefront and retail management web app featuring responsive catalog browsing, shopping cart, size options, and admin order management.
- Integrated **Cloudflare Turnstile** verification on checkout to protect forms against automated spam and bot submissions.
- Connected **Pathao Courier API** to automate parcel creation and store delivery tracking numbers directly in PostgreSQL.
- Implemented in-browser thermal barcode label generation (50×30mm) and sales summary views to understand retail workflows.
- Containerized application with **Docker** and deployed to **Render cloud** with **Sentry** error monitoring and **UptimeRobot** health checks.

Tamurfood – B2B Bakery Ordering & Kitchen Dispatch Platform

Solo Project · Deployed Live (Cloud) | 2026

github.com/abdullahxDNA/Tamurfood · Live Demo: tamurfood.onrender.com

Stack: React 19 · Hono · Bun · Better Auth · PostgreSQL (Supabase) · Drizzle ORM · Server-Sent Events (SSE) · Docker · Render · Sentry · Tailwind CSS

- Developed a full-stack B2B bakery ordering web app allowing local retail shops to place daily food orders from a live menu.
- Implemented real-time order updates using **Server-Sent Events (SSE)** to notify kitchen staff when new orders arrive.
- Designed a per-shop credit ledger ("Khata") to track balances and payments, with concurrency-safe stock updates in PostgreSQL via Drizzle ORM.
- Containerized with **Docker** and deployed to **Render cloud** with Supabase S3 image storage and Sentry error monitoring.

CERTIFICATIONS

Fullstack Blockchain Development

NonAcademy — Batch 02
2025

Front-End Development

EDGE Project – CUET, Bangladesh
Computer Council
Aug – Dec 2024

Introduction to Blockchain Technology

Ostad Platform

Online Leadership Course

Aspire Leaders Program
March 2023

CORE STRENGTHS

- Fast Learner & Adaptability
- AI-Assisted Development
- Continuous Skill Growth
- Cross-Functional Teamwork
- Core CS & Database Basics
- PRD & Feature Breakdown

COLLABORATIVE & ACADEMIC ENGINEERING

DeshGhuri – Travel Marketplace Platform

Team Project | 2025–2026

github.com/samin124/DeshGhuri

Stack: React · TanStack Router · TanStack Query · Hono · Better Auth · PostgreSQL · Drizzle ORM · Tailwind CSS · Bun

- Authored the product requirement document (PRD) and managed sprint feature breakdown in ClickUp across a 3-engineer team.
- Architected the **seller authentication & session lifecycle** using Hono and Zod schema validation.
- Built the **seller analytics & dashboard API** computing revenues, bookings, and listing metrics via Drizzle ORM & PostgreSQL.
- Implemented admin seller verification workflow and migrated media pipeline to Supabase Storage.
- Developed seller-side UI components: onboarding steps, listing tables, and pagination in React.

Blockchain-Based Agricultural Food Supply Chain

University Thesis | 2024–2025

github.com/abdullahxDNA/agrifood-blockchain-hyperledger

Stack: Hyperledger Fabric · Go Chaincode · Docker · CouchDB · Ubuntu

- Designed decentralized provenance tracking workflow covering farmer → processor → retailer → consumer lifecycle with cryptographic verification.
- Configured multi-organization Hyperledger Fabric network (orderer, peers, endorsement policies, and private data collections) via Docker.
- Authored comprehensive technical documentation and defense presentation; benchmarked transaction performance.

Lung Cancer Detection Using Ensemble CNNs

University Project | 2025

github.com/abdullahxDNA/lung-cancer-prediction-ml

Stack: Python · TensorFlow / Keras · Xception · ResNet50 · Scikit-learn

- Developed deep learning classification pipeline combining ensemble CNN architectures (Xception + ResNet50) for medical CT image analysis.
- Executed data preprocessing, augmentation, and confusion matrix performance evaluation.

ACHIEVEMENTS & ACTIVITIES

- **Top 10 Finalist – Hult Prize at IIUC 2023:** Developed business plan, market analysis, and social enterprise pitch in a competitive team challenge.
- **Honorable Achievement – Face The Case 3.0, IEEE CUET Student Branch:** Recognised for analytical thinking and problem-solving in a national case competition.
- Active in IIUC Biz Communication Club and represented in Interactive Cares Career Fair 3.0.
- Participated in university business strategy competitions; member of student tech and debate clubs.
